How this guide is structured: Each section states the goal, lists numbered actions, and shows what you should see when the step succeeds. Annotated screenshots tie numbered callouts to labels on screen so you can match the guide to MDP while you work.

Executive summary

Home is the landing hub after you sign in to the **Market Data Portal (MDP)**. It does not show financial tables—it helps you **pick a company** (or, in the future, a sector) and jump straight into that company's **Market Data Dashboard**. Most day-to-day work continues from the top navigation bar without returning here.

Who should read this

- Analysts and researchers who start research from a **company name or ticker**
- Sales and client-facing teams who need the fastest path from sign-in to one company's financials
- Anyone new to MDP who lands on Home after SSO

What you'll learn

- What the two center cards do (**View by Company** vs **View by Sector**)
 - How to search the company dropdown and enable the **View** button
 - How Home connects to Market Data and the rest of the portal
-

What Home does and does not do

Home provides	Home does not provide
Company search and one-click entry to Market Data	Income statements, estimates, or screening results
Preview of future sector browsing	Active sector reports (sector View is not yet available)
Same top navigation as every MDP page	A sidebar or secondary menu

Step 1 — Arrive on Home after sign-in

1. Complete [SSO sign-in](#).
2. MDP opens **Home** with the heading **CORESIGHT MARKET DATA** and two cards side by side.

Expected outcome: You see **View by Company** on the left and **View by Sector** on the right, plus the standard top navigation.

Home — company and sector entry cards

Callout	What it is	What to do
①	Top navigation bar	Jump to Earnings, Screening, News, or Market Data without returning to Home.
②	View by Company card	Primary entry when you know the retailer or ticker.
③	View by Sector card	Future hub for sector-level views; not active for general use today.
④	Select a Company dropdown	Type to search; pick a row from the list to enable View .

Step 2 — Select a company

1. On **View by Company**, click **Select a Company**.
2. Type part of the **company name** or **ticker** (for example `Nike` , `WMT` , `Target`).
3. Click the correct row in the filtered list—typing alone does not select a company.
4. Confirm the **View** button turns **red** and becomes clickable (it stays grey until a valid company is chosen).

Expected outcome: The dropdown shows your selection; the **View** button is active.

Home — company selected and ready to open Market Data

Callout	What it is	What to do
①	Select a Company dropdown	Confirms your chosen company before opening Market Data.
②	Red View button	Click to open that company's Market Data Dashboard.
③	Select a Sector dropdown	Placeholder—sector browsing is not yet available.
④	Grey sector View button	Disabled until sector browsing launches.

CONFIDENTIAL

Coresight Research — Internal Use Only

Page 7 of 13

Step 3 — Open Market Data for the selected company

1. With a company selected, click the red **View** button (arrow icon).
2. MDP opens the **Market Data Dashboard** for that company.
3. You land on **Company Profile** by default.

Expected outcome: The page header shows the company name and ticker; tabs such as **Income Statement**, **Key Stats**, and **Estimates** appear below the header.

Tip: The company you pick here is remembered when you move between Market Data tabs and many other MDP pages until you change the company selector in the header.

Home — Market Data opens after View

Callout	What it is	What to do
①	Top navigation	Confirms you are inside MDP after View .
②	Company header	Shows the selected company name and ticker.
③	Company Profile tab	Default landing tab for Market Data.

Alternative — Return to the company picker

You can return to Home any time via the portal route after sign-in. The layout matches Step 1 above.

Home — dashboard layout

Callout	What it is	What to do
①	View by Company card	Same Select a Company flow as Step 2.
②	View by Sector card	Placeholder for future sector browsing.
③	Select a Company dropdown	Type-to-search company picker inside the left card.

View by Sector (coming soon)

The **View by Sector** card shows sample sector names in the dropdown, but the **View** button remains disabled. Hovering may show **Coming Soon**.

Expected behavior today: Use **View by Company** or the top navigation. Do not rely on sector browsing for client deliverables until Coresight announces it is live.

Try it yourself

Task: Open Nike's Market Data Dashboard from Home.

1. Sign in and confirm you are on **Home**.
 2. Open **Select a Company** and type or .
 3. Select **NIKE, Inc.** from the list.
 4. Click **View**.
 5. On Market Data, click **Income Statement** and locate **Total Revenue** for recent fiscal years.
-

Common tasks

I know the brand name, not the ticker

Type the consumer-facing or legal name in **Select a Company** (for example ,). Pick the matching legal entity from the dropdown.

Skip Home—I usually live in Earnings Calendar

After sign-in, click **Earnings Calendar** (or any top-nav item) directly. Home is most useful when you want a **company-first** path into Market Data.

Company missing from the dropdown

The list only includes companies in the MDP coverage universe. Contact your Coresight data contact if a retailer you expect is absent—it may not yet be onboarded.

FAQ and troubleshooting

Situation	What to try
View stays grey	Select a company from the dropdown list; typing without clicking a row does not count.
Two similarly named companies	Read the full legal name in the dropdown before clicking View .
Sector View does nothing	Expected—sector browsing is not yet available.
Footer links open coresight.com	Normal—they open in a new tab and do not sign you out of MDP.

Where to go next

- [Market Data Dashboard](#) — Financial statements, estimates, segments, and Excel export
